— Presented by IFAT —

# Asia's leading trade fair for environmental technology solutions: Water, Waste, Air and Soil.

**193,000m<sup>2</sup>**  
of exhibition space

**2,457**  
exhibitors

**90,120**  
trade visitors

**36**  
conferences

IE expo China, held annually in Shanghai, is recognized as Asia's leading trade fair for environmental technologies. In 2024, the event hosted 2,457 exhibitors from 27 countries and regions, covering 193,000 square meters across all 17 exhibition halls. The fair attracted more than 90,120 professional buyers from 75 countries, solidifying its role as a key platform for driving the high-quality development of the environmental sector.

In line with China's 'Double Carbon' goals, the upcoming edition will continue to focus on critical topics such as the circular economy and the growing demand for green technologies.

The 26th edition of IE expo China will be held from April 21 to 23, 2025, at the Shanghai New International Expo Centre (SNIEC). With expectations of increased participation from both exhibitors and visitors, it promises to be an even more influential event for the industry.

# Hall plan of IE expo China 2025

- Comprehensive environmental solutions
  - National and regional pavilions
  - CECC pavilion, Shanghai pavilion
  - Ecological Restoration
  - Carbon neutrality
  - Reduction and Energy Conservation
- Water and wastewater
  - Water supply and drainage systems
  - Smart water and pipeline network zone
- Waste management and recycling
  - Urban sanitation and construction waste
  - Waste-to-energy and resource utilization
- Air pollution control
- Monitoring and detection
  - Process control and instruments
  - Detecting and treatment of new pollutants
- Outdoor exhibition area

## Good reasons to exhibit

### Guarantor of quality

Nearly 60-year record of the parent show IFAT in Munich and 25 years of experience in the Chinese market.

### Strong support

The Chinese government, international organizations, and major industry associations officially endorse the event.

### Excellent business and networking platform

Contact to top experts, opinion leaders and decision-makers to develop national and international business.

### High-quality supporting program

Share and discuss the current issues of the environmental protection industry at the event's conferences, conventions and sub-forums.

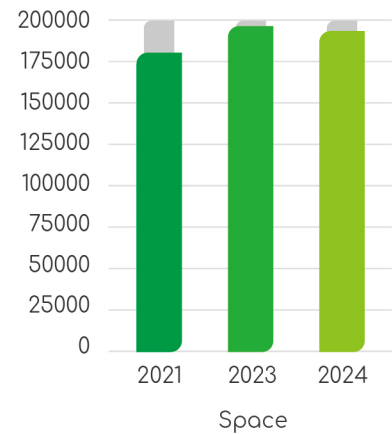

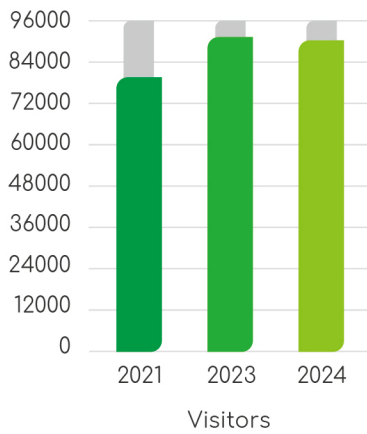

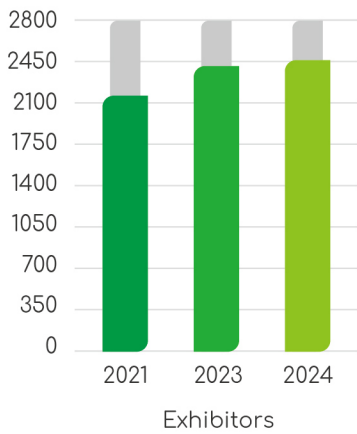

## Key exhibitors

## International / Regional pavilions (2024 data)

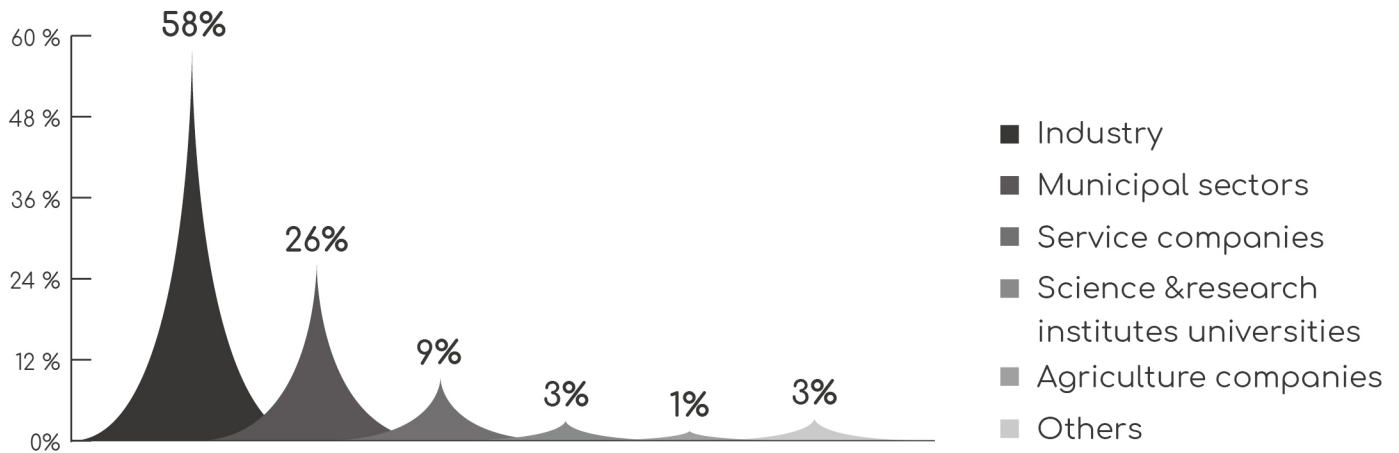

# Facts and figures

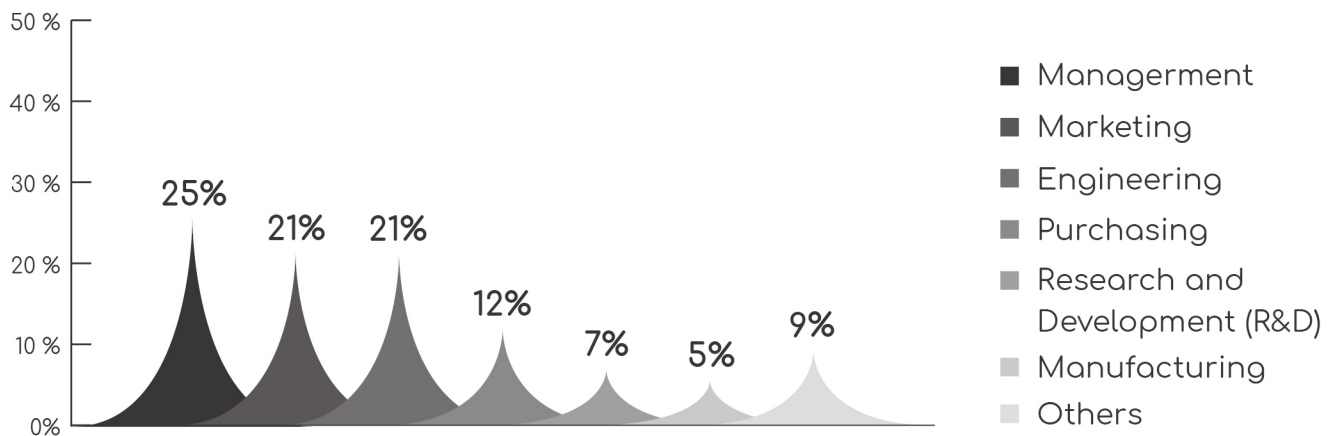

\* IE expo China 2022 was taking place as a special edition in Shenzhen due to COVID restrictions.

The IE expo China Environmental Technology Conference is a key component of IE expo China, established in 2013. Under the meticulous planning of the Chinese Society for Environmental Sciences (CSES), the China Environment Chamber of Commerce (CECC), and other institutions, the conference has been successfully held for ten years.

The upcoming IE expo China Environmental Technology Conference 2025 will feature a core summit and over 36 sub-forums, spanning six major environmental segments: Water, Air Pollution Control, Waste, Site Remediation, Environment Monitoring, and the Comprehensive Sector. The event will showcase the latest products and technologies while providing a multidimensional analysis of industry trends. Join industry leaders, technical experts, and research scholars at this premier platform to address current environmental challenges. Connect with global environmental experts and develop your business while exchanging ideas.

# IE expo China Conferences 2025 — a preview

## Main Forum

- China Environmental Technology Conference 2025

## Water and Sewage Sub-forum

- Industrial Water Treatment and Membrane Technology Development Forum 2025
- Smart Water Networks and Urban Water Management Innovation Forum 2025

## Solid Waste Sub-forum

- Strategic Forum on Industrial Solid Waste and Construction Waste Utilization 2025
- International Conference on Recycling Technologies for Decommissioned Power Batteries 2025

## Air Pollution Control and Air Purification Sub-forum

- 11th International Conference on VOC Emission Control and Monitoring for Key Industries 2025

## Site Remediation Sub-forum

- Soil Remediation and Rehabilitation Technologies Roundtable in the Context of Sustainable Development 2025

## Environmental Monitoring Sub-forum

- 5<sup>th</sup> Environmental monitoring forum (2025)
- Digital empowerment of environmental monitoring for Innovative Development 2025

## Environmental Comprehensive Sub-forum

- 5th International Forum on Environmental Monitoring 2025

## Green and Low-carbon Sub-forum

- International Conference on Carbon Neutrality and Green Development 2025

## Concurrent Events

- Environmental Innovators Showcase 2025
