Accident Prevention, Work
Safety, Risk Management

What exhibitors say about IFAT Eurasia 2023

We're delighted with the turnout of exhibitors and visitors at this year's IFAT Eurasia. From the outset, the response has been overwhelmingly positive. It's been gratifying to engage face-to-face with longstanding clients and partners, many of whom we've previously only connected with over the phone. Additionally, we've had the pleasure of forging new connections. Our guests have spanned international borders, representing municipalities, institutions, OIZs, and various industries. The feedback has been exceptional, affirming the success of our endeavors.

Okan Cural
General Manager
İdeal Motor Enerji Sistemleri

IFAT Eurasia holds a significant place in our calendar. It stands out as the premier platform in Türkiye for showcasing our environmental technology products. While there may be other exhibitions covering related fields, they tend to focus on the installation or superstructure aspects of the sector. IFAT Eurasia, on the other hand, perfectly aligns with our objectives and provides us with an ideal venue to present our offerings.

İbrahim Zağralı
Sales Manager
Doğuş Vana ve Döküm San. Tic. A.Ş.

IFAT Eurasia has been a pleasure for us, as it attracts a professional clientele rarely seen at other exhibitions. Over the past three days, we've connected with diverse institutions we have struggled to reach and our target audience, providing an ideal platform to promote our products effectively. We thank IFAT for enabling such fruitful networking.

Seyhan Döner
General Manager
Bortek Boru Tesisat Teknolojileri

In our endeavors to showcase our cutting-edge recycling technologies, engage in meaningful discussions, and forge lucrative partnerships, there's no event more important than IFAT Eurasia. This exhibition holds our utmost priority, reflected in our consistent expansion of presence year after year. We view our participation at IFAT Eurasia as a perpetual commitment, integral to our continued existence in the industry. The professionalism exhibited at IFAT Eurasia is unparalleled, a testament to the wealth of experience garnered over 50 years in Germany. We are thoroughly satisfied with the exhibition's preparation and execution.

Ömer Benli
Chairman of the Board
Benli Geri Dönüşüm Mak. San. Ve Tic. A.Ş.

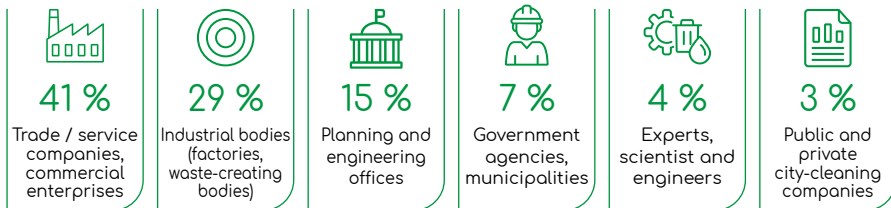

We hold a deep appreciation for IFAT, valuing it as a pivotal event in our industry. Among the numerous domestic and international exhibitions we attend, IFAT Eurasia stands out for its unique ability to bring together both our prospective and established clientele from Türkiye and beyond. The synergy within the sector fostered at IFAT enhances our professional relationships significantly. For many years, IFAT has consistently delivered a top-tier exhibition experience, conducted with utmost precision and quality. We commend the organizers for their unwavering commitment to excellence.

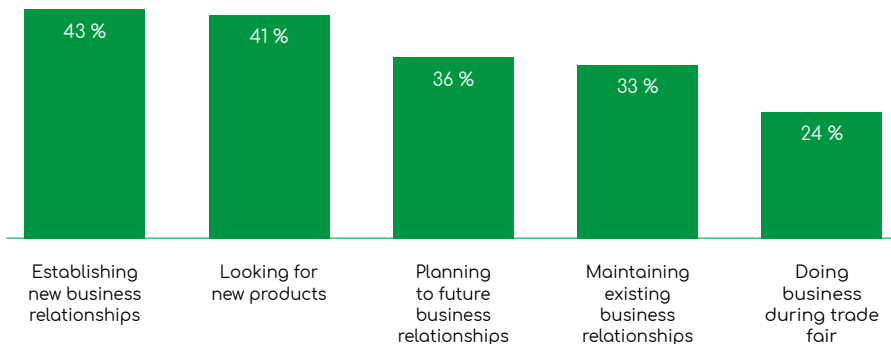

Ali Atalay
Smart Systems Director
Dikkaya Su Kontrol Sistemleri

IFAT Eurasia: meeting, networking and trading space for the environmental technologies sector

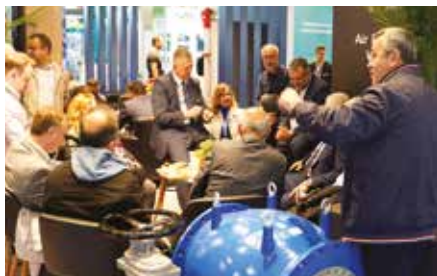

Visitor Profile*

Visitors' aims*

Do not miss the only opportunity where you can reach national and international players at the same time!
