European Parliament, water-related Parliamentary questions

Members of the European Parliament show a regular interest of water issues in their Parliamentary questions.

In the period between 25 September and 27 November 2024, 18 water-related questions were tabled, from the water scarcity to waste water treatment, from drinking water quality to the human right for water and sanitation, and the Water Framework Directive.

EWA News presents you the outline texts of the questions and the coordinates of the MEP who has submitted them, plus links to the full text and (once available) the answers.
